

# FUEL STORAGE – TRANSPORTABLE TRANSCUBE GLOBAL

The TransCube Global is a transportable, environmentally-friendly double-walled fuel storage tank that offers an efficient solution for on-site fueling and auxiliary supply.

With its fully transportable design and ability to fuel multiple pieces of equipment simultaneously, the TransCube will save you time and double or triple the run times of your equipment.

## MODEL: 50TCG

The TransCube Global 50TCG is a portable, double-walled fuel tank. Reliable and flexible, for transporting fuel where and when you need it.

### SECURABLE

Equipment and ports are secure and spills are contained. Secure hose access enables fueling while cabinet is locked.

### STACKABLE

Easily stackable: two high full and three high empty.

### ENVIRONMENTALLY SAFE

Double-walled, 110% containment eliminates the need for spill pans, UL 142 approved.

### TRANSPORTABLE

Full load lifting eyes, four forklift pockets and internal baffles designed to allow handling of the tank full of fuel.

### MAINTAINABLE

Removable inner tank for routine cleaning, maintenance and inspection.
